# PROJECTS

## Project Title : (Language Translator)

- **Tech :** Python, Google Translate API
- Built a Python application to translate text between multiple languages in real time.
- Implemented a clean and interactive interface for easy text input and output.
- Ensured accurate translations with error handling for invalid inputs.

## Project Title : (ExamForge — an AI-powered exam paper generator web app.)

- Frontend: Vanilla HTML/CSS/JS (single-page app with custom routing)
- Backend: Python Flask with SQLite
- Key pages/features:
- Dashboard — stats + recent papers
- Generate Paper — multi-step wizard (Academic Details → Syllabus → Sections → Generate)
- Paper History — view, download (PDF/DOCX), delete papers
- Admin — user management, all papers view
- Settings — profile/preferences
- AI stack: Qwen + Llama models via API (ai\_service.py)
- Paper output: Renders styled question papers, exports to PDF and DOCX via pdf\_service.py
- Auth: JWT-based, role-aware (faculty vs admin)

## LANGUAGES

## HOBBIES

- Travelling & Exploring
- Listening song
- Gaming
